Hanenkamp Job #022195

Dear David:

The work performed to-date on this project, appears to be ahead of schedule, and presently we are experiencing the longer period of construction with the building addition, that is now under way.

I believe all our work is up to schedule, including paper-work, ie the reports that are required each month. As they say - " no job is complete until the paper-work is completed " and we will have a lot of paper-work on file when we're finally completed.

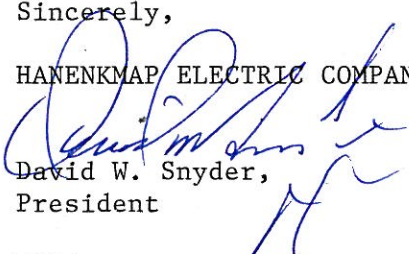

However - in checking our files, we find, that we did not return to your office, the original contract agreements, though we proceeded on your 'letter of intent' and basically had a contract-by-performance.

Enclosed is our signed contract agreement, and we ask that you return a copy after your review. Everything has gone well to now, and will also continue for the balance of the project.

Again, it has been a pleasure working with your firm on this project, and hopefully, we will be successful again. As you may recall, some ten to fifteen years ago, we had numerous jobs under contract at the Veterans Administration as well as at the Arch, being the Museum job.

Sincerely,

HANENKAMP ELECTRIC COMPANY

David W. Snyder,
President
